

Acer recommends Windows Vista® Home Premium.

The Acer Mini PC Family (Aspire L3600 & X3600)

The new Aspire L3600 and X3600 are part of our mini PC family and bring you the best of high-speed performance in the least amount of space necessary. Both are excellent entertainment modules, one boosted with enhanced sound capability. Either one will give you a thoroughly exciting movie or music experience!

Space Saver

Both models are space-savers: the 3-liter 'L' is 10 times smaller while the 6.5-liter 'X' is 1/4 of a traditional tower PC. No need for cumbersome racks and more room for comfort.

Low Noise

No more distractions with noisy cooling fans. Both these models operate at 26dB which is less noisy than the average computer. As comfortable as working in a quiet countryside.

Performance

Despite its compactness, these machines give you great performance capability, running on the Intel® Core™2 Quad processor and providing ample storage capacity.

Energy Saving

Smart power management plus a processor that is designed for energy-efficiency ensures that your power usage is down to the least possible required.

2008 ISSUE

Acer recommends Windows Vista® Home Premium.

Acer is the No. 1 brand in Singapore for Portable Personal Computers & Desktop Personal Computers in Year 2007 based on GfK Singapore Retail Audit Reports in units.

The Highlights Of Acer Products

Acer Multimedia PC series

Make Acer's wide selection of Aspire desktop PCs the centerpiece of your digital home. Equipped with the latest multimedia technologies, communication essentials, and performance innovations, the Acer Aspire brings you to new heights of sensory as well as computing enjoyment.

Dynamic Performance

The Intel® Core™2 Quad processor accelerates processing of the latest high-intensity home entertainment and multi-threaded applications.

Flexible Connectivity

An HDMI™ port transmits a clean, digital video signal to modern LCD monitors or other digital display devices. With four USB 2.0 ports in the front, another four in the rear, and a multi-in-one card reader supporting all the latest media formats, you can bring your multimedia devices together with ease.

Top-of-the-Line Entertainment

High-definition audio with 7,1-channel surround sound and S/PDIF support delivers crystal clear acoustics for a theater-like entertainment experience at home. The optional Blu-ray Disc™ (BD) optical drive offers a full range of support for exceptional high-definition viewing.

Simplified Management

Acer Empowering Technology is a smart suite of utilities designed to make common tasks and system configuration simple. Acer Arcade™ Live grants you multimedia-savvy applications with tremendous creative capability.

Acer LCD Monitor series

Acer LCD monitor series are designed for those who require exceptional multimedia performance, presenting intense graphics and superb video.

eColor Management

Acer eColor Management offers optimized image performance tailored for common usage scenarios, delivering an improved, more enjoyable viewing experience.

eDisplay Management

Acer eDisplay Management is a powerful color enhancement and display rotation tool:

- Intuitive basic adjustment
- Advanced color calibration
- Smart display rotation

Convenient digital input

A DVI and HDMI input maximises the connection quality between LCD monitors and other digital sources. High-bandwidth Digital Content Protection (HDCP) support ensures enjoyment of full-quality DRM-protected entertainment.

Adaptive Contrast Management(ACM)

Acer ACM features advanced technology for stunning picture quality, analysing every scene and adjusting images frame by frame to enhance contrast through more details and gradation in brighter scenes or dimming images. Also allows the LCD monitor to use less power and save more energy.

Aspire L3600 (72M232) powered by Intel® Core 2 Duo Processor E7200.

ASPIRE

GEMSTONE *Blue*

Take your breath away with the visual and aural realism of Aspire CineReal Sensation! The 16:9 Acer CineCrystal™ full HD display^ and Acer CineSurround^ 6-speaker audio system will amaze you with true cinematic experience on the go.

Experience

The touch-sensitive CineDash media console responds instantly to the lightest contact and keeps the entertainment flowing just the way you want it.

Style

The Gemstone Blue projects an identity of its own, with its distinctive logo backlit, reflecting unmistakable style and exuding pure power.

Vision

The Aspire Gemstone Blue is the first notebook series to come with the choice of 16:9 screens and true 1920x1080 high-definition resolution, allowing every single pixel to be displayed without compression, a visual experience that will leave you breathless. Coupled with Blu-ray Disc drive^, it is a truly enlivened entertainment experience.

Sound Theatre

With Dolby® Home Theatre, Tuba CineBass booster and up to six integrated speakers for true 5.1 CineSurround^, the Aspire Gemstone Blue gives your favourite entertainment a voice worth listening to.

^Only applicable for selected models.

ASPIRE ONE

My Mobile Internet Companion

A stylish all-new digital device designed for a true mobile, wireless experience. At only 0.995kg*, the Aspire one is a perfect companion wherever you are.

Available in 3 colours*:
• Sapphire Blue
• Seashell White
• Golden Brown

Intel® Atom™ Processor

The Intel® Atom™ processor is Intel's smallest processor. It is built with world's smallest transistors based on industry-leading 45nm high-k metal gate technology.

Distinctive & Stylish Design

Encased in a pearlike glossy cover with smooth rounded edges, the Aspire one is both stylish and sleek. A stunning orange highlight around the hinges underlines its unique characteristic.

Simple, Sophisticated Software*

By taking a more natural approach to screen layout and functionality, the Aspire one presents you with a friendly, easy-to-use yet comprehensive user interface.

- One Mailbox
- One Instant Messenger
- One Integrated User Interface
- One Smart File Manager

*Colour availability varies depending on model.
*Only applicable for Aspire one AOA110.

ASPIRE GEMSTONE

The Aspire Gemstone notebook radiates the enduring allure of precious stones. Inside and out, the Gemstone shines through, adorning the Aspire line of notebooks with a brilliant appearance, well worth treasuring.

Logo Lighting

The starlit backlight glows below the floating Acer logo, the focal point of the iridescent, midnight sapphire sub-layer, which sparkles in varying gradations of black and blue when viewed from different angles.

Dolby® Surround Sound

Acer Aspire is the very first full line of notebooks to enhance digital home entertainment with Dolby® Surround Sound. Topping it off, the delightfully designed Music Note speaker with the second generation Dolby Home Theatre® brings entertainment to the next level.

Sapphire Blue Design Touches

Bejeweled in translucent sapphire blue, the Aspire nameplate and Empowering Key emerge like radiant gems inlaid in a ceramic work of art, and complement the Acer logo silhouette on the LCD cover for an attractively unified design element.

Pearl Gray Finish PalmRest

The surface features a unique, ceramic-like texture for a cosy hands-on feel.

TravelMate series

Built to be your on-the-road business partner, Acer TravelMate notebooks offer a wealth of reliability, security and communication features integrated in a sleek, professional design.

Magnesium Alloy Chassis

Magnesium alloy chassis enhances the strength of the notebook casing, and fortifies it against bumps and bangs. We make sure that your notebook is always your lasting companion.

DASP (Disk Anti-Shock Protection)

Acer's unique Disk Anti-Shock Protection (DASP) wraps the hard disk in a protective casing for added safety from on-the-road damage. So your computer and your data are safely protected, giving you peace of mind.

Optimum Reliability

Every Acer notebook is comprehensively tested to verify that it meets Acer's stringent standards for sturdiness and reliability.

Acer Empowering Technology*

This innovative technology allows easy access to frequently used functions and settings. Just a tap of the Empowering Key opens the door to an indispensable suite of handy utilities that keep you in constant control:

*Availability of individual utility subject to model.

Acer eData Security Management
Protects files from being accessed by unauthorised persons, using passwords and encryption.

Acer ePower Management
Provides a straightforward interface that allows you to select from four pre-configured power usage profiles or to create your own customised profiles.

Acer eRecovery Management
Standalone backup and recovery manager.

Acer eSettings Management
Offers you complete control over the workings of your system.

Acer eNet Management
Possesses a smart utility designed to keep you online and connected when switching locations or entering new settings.

Acer eAudio Management
Choose between pre-defined modes - movies games and music to suit your music needs.

Acer Bio-Protect Fingerprint Reader**

With an integrated fingerprint reader, you can go for a pre-boot authentication (PBA) for secure authentication during system power-on, or even use the fingerprint reader to replace passwords for websites, etc. Enjoy greater security for your important documents.

Acer SignalUp™

Utilising the most efficient antenna type available (PIFA Planar inverted-F antenna), and placing the antennas on the top of the notebook LCD panel creates a perfectly-shaped omni-directional signal sphere, thereby ensuring that your wireless connection remains strong even at the outer limit of an access point's range.

Acer CrystalEye

Stay in touch with your loved ones or business partners wherever you go. The Acer CrystalEye is integrated with the Acer Primalite technology, allowing the webcam to provide superior performance in low-light conditions. As a result, you enjoy a more natural skin tone, sharper images and less distortion.

** Only applicable for selected Aspire and TravelMate models.
